

Mineral Labs Inc. is dedicated to providing water analysis and sampling services throughout Kentucky, West Virginia, Ohio, Illinois, Alabama, and Tennessee. In order to provide our clients with the most comprehensive range of analysis, MLI is certified in both Drinking Water and Waste Water. As environmental concerns continue to grow, Mineral Labs is on the forefront offering a complete package of services for water analysis including:

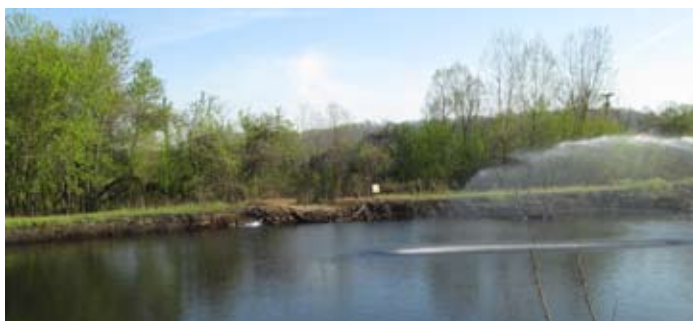

Analysis:

- Drinking Water Analysis
- Ground Water and Surface Water Monitoring
- NPDES Analysis
- Waste Characteristic Analysis (TCLP)

Water Properties

- Acidity
- Alkalinity
- Ammonia Nitrogen
- Biochemical Oxygen Demand (BOD)
- Carbonaceous BOD
- Chloride
- Chlorine, Total Residual
- Chemical Oxygen Demand (COD)
- Color and Odor
- Conductivity
- Cyanide
- Dissolved Oxygen
- Fluoride
- Hardness, Total
- Hardness, Calcium
- MBAS, Surfactants
- Nitrate
- Nitrate-Nitrite
- Nitrite
- Oil and Grease
- Oil and Grease Hydrocarbon
- Orthophosphate
- pH
- Phenolics
- Phosphorus, Total
- Settleable Solids
- Sulfate
- Temperature
- Total Kjeldahl Nitrogen (TKN)
- Total Dissolved Solids
- Total Organic Carbon
- Total Solids
- Total Suspended Solids
- Turbidity
- Whole Effluent Toxicity
 - Ceriodaphnia Dubia
 - Daphnia Magna
 - Pimephales Promelas
- Fecal Coliform
- E. Coli
- Organics
 - TTHMs
 - HAAs
 - VOCs
- Selenium in Fish Tissue

For additional Water Analysis and pricing information call or email our sales department at sales@minerallabs.com or (606)349-6145. We have 20 different laboratories dedicated to Water Analysis and Water Sampling located through Kentucky, West Virginia, Virginia, Ohio, Illinois, Florida, and Alabama.

Metals

- Aluminum
- Antimony
- Arsenic
- Barium
- Beryllium
- Boron
- Cadmium
- Calcium
- Chromium
- Cobalt
- Copper
- Fish Tissue Analysis
- Iron
- Lead
- Magnesium
- Manganese
- Mercury
- Mercury (Low Level)
- Molybdenum
- Nickel
- Potassium
- Selenium
- Silver
- Sodium
- Strontium
- Thallium
- Tin
- Titanium
- Vanadium
- Zinc

Water Categories

- Drinking Water Analysis
- Ground Water and Surface Water Monitoring
- NPDES Analysis
- Waste Characteristic Analysis (TCLP)

Water Sampling

Mineral Labs Inc. is well educated in water sampling and uses state-of-the-art equipment to perform water sampling and analysis. We utilize both composite and grab sampling methods to analyze water conditions for the following parameters:

- pH
- Dissolved Oxygen
- Nitrates
- Phosphates
- Carbon Dioxide
- Turbidity
- Coliform Bacteria
- Macro invertebrates
- Temperature
- Total Suspended Solids
- Discharge Treatment Services
